

Fiscus Global

*Strategic
Business Finance
Simulation*

Fiscus Global is a strategic management finance simulation with a high degree of difficulty. It has been designed for participants to develop themselves with regard to considering financial risks and constraints while making decisions on a strategic level.

Besides fundamental financial knowledge, perceiving and managing sustainable growth dynamics forms the basis of the simulation.

For participants who have not previously received basic training in financial matters, playing our Safe Company simulation will be useful before playing Fiscus Global.

Because of the unique experience provided by Fiscus Global, participants gain experience equivalent to five years of business and finance management by managing the complex relationships between finance and administration functions.

Thanks to our experienced team of instructors and our virtual training assistants, the participants gain an unmatched experience in approaching financial matters on a strategic level in a very short time.
