AREAS OF DEVELOPMENT

During the training, in addition to theoretical knowledge related to **using two-way communication processes effectively, listening skills and expressing oneself correctly**, participants get the chance to put these skills into practice in the simulation application. While communicating with each other, they become successful in developing skills for understanding the other party's priorities and establishing empathy.

PHANTASMA

In Mr Probus' haunted mansion, you will have to battle with all kinds of dangerous creatures: werewolves, vampires, zombies, ghosts and others. Will you be able to save the world from Mr Probus' black magic?

Playing the game is as entertaining as it is instructional. In a fantastic environment, you will learn to overcome the communication dilemmas that you encounter in your work life.

Imagine that you have to battle with witches, ghosts, werewolves and many other dangerous creatures in a dark room. You cannot see any of them. However, a friend who can see them will be informing you about where they are and how they are moving.
